Housing & Land Use Committee resolutions

“The Macalester-Groveland Community Council supports Ryan Companies in all of its requests for amendments to the Ford Site master plan.”

“Whereas the Ryan Companies current plan for the Ford Site contains NO bus/transit stations and/or bus/transit routes nor does the layout incorporate residence and business access to transit,

And Whereas higher density, affordable housing residents require access to transit for employment and senior residents require access to transit for care,

And Whereas transit orientation guides 21st century development project, targeting key demographics young adults and retirees seeking a “less driving / less car dependent” lifestyle.

And Whereas, transit oriented development is consistent with the City of Saint Paul’s draft 2040 Comprehensive Plan,

Therefore, Be it resolved, that MGCC requests the City of Saint Paul and Ryan Companies engage Metro Transit in discussions to prioritize appropriate transit capacity within the site and to include routes sufficient for citywide connectivity throughout the site and to incorporate specific transit infrastructure in future site plans.”
